Winterberry <i>Ilex verticillata</i>	12-18"	3 for \$10		\$
Tree Guard Each 4" diameter tube speeds photosynthesis by trapping moisture, thereby raising relative humidity and ambient temperature inside the tube. Also protects the tree from animals, wind desiccation, small rodents, and insects. Includes a 48 inch wood stake. Note: Tubes should be buried a minimum of 2" into the soil for optimal results and are recommended for deciduous trees only.		\$3 Each		\$
Total				\$

Bare-root seedlings. Not for re-sale. Species selected for conservation plantings as windbreaks, hedges, and wildlife habitat and food sources.
